Staffing Services

Experienced People
Proven Approaches
Technology Expertise

In today's business environment, information technology progresses at a relentless pace. Business growth and acquisitions require new integration competencies and new application and technology expertise

Understaffed IT departments are faced with seemingly impossible demands and deadlines. More than ever before, businesses need IT professionals already trained in their technologies and applications to achieve their immediate business objectives. Success depends on having the right team available at the right time to get the job done.

eHealthPartners Staffing Services organization provides consultants with the expert product knowledge, industry background, information technology experience, consultative approaches and strategic insights you rely upon. Each IT professional blends business savvy and technical expertise with the desire to exceed your goals.

No matter what your need, our IT Staffing Services group can help you achieve success by providing the right expertise, at the right time and within your budget targets.

We provide a broad range of supplemental or interim staff including:

- Chief Information Officers
- Interim IT Directors or Managers
- Program & Project Managers
- Configuration Consultants
- Business Analysts
- QA/Testing Consultants
- Trainers
- Enterprise/SOA Architects
- Information Security Consultants
- Application & Web Developers
- Infrastructure Engineers
- Database Architects, Developers and DBAs
- Reports and Letters Developers
- Data Conversion and Interface Specialists
- EDI Specialists
